

Aqua Clad

The revolutionary flat-pack
slimline metal tank

Need a Water Tank? Limited Access? AquaClad™ Flat-Pack is for you!

Revolutionary AquaClad™ slimline metal tank is packed flat in a modular design for you to carry anywhere and assemble on the spot. It's just perfect for those tight spots with limited access.

AquaClad™ is the best rainwater storage solution for you because:

- It can be carried under your arm in pieces
- It maximises the storage per square metre
- It is quick and easy to assemble with interlocking and numbered parts, prefabricated nutserts and slide-in panels
- It comes in 2 heights, 3 widths and 9 lengths giving 54 standard sizes
- Full range of Colorbond® colours
- It has the unique ability to add brackets to attach alternative claddings to allow an infinite number of finished looks.

Metal Tanks have never been so flexible!

The AquaClad™ kit comes flat packed and contains:

- All structural members to build the frame
- All fasteners and nutserts for easy assembly
- All side and roof panels
- Inlet, overflow and outlet fittings
- Liquidity VLS™ waterproof liner accredited to AS/NZS4020 for potable water
- Protective geo textile to line walls and floor of tank
- Inlet strainer with light protection and removable mesh for cleaning
- Cladding brackets (optional extra)
