
I-FLEX // STORAGE FLEXITANK

Designed for temporary or medium term static storage of liquids

Cost effective liquid tank, good for outdoor storage

Tailor made up to 75,000 litres

Multiple usage

Liqua

LiquA

Technical Information

Volume:
10,000 to **75,000** litres

Valve Camlock 2" or 3"

Temperature tolerance:
-50°C up to + 70°C

Multilayer design

150Kly resistance against
Ultraviolet radiation of
direct Sun exposure

Food approved raw
materials
Clean room production

Optional:
Air release system
EVOH – Oxygen Barrier

NOT applicable for hazardous
liquids

Features & Advantages

Designed for **IN** and **OUT**
doors static storage for liquids

Ideal solution for **urgent**
liquid storage needs

Ideal for **emergency**
drinking, irrigation water
demand

Tailor made production for
each project

Multiple usage, folded away
when empty

Multiple valves –
Simultaneous filling or
discharging from multiple valves

Patented **bonnet** protection
around the valve as a secondary
security and hygiene

Light weight and **compact**
to deliver when empty

Easy to prepare and simple
to use

LOW Residue

Environmental Friendly

Carbon Foot Print
much **lower** than
alternative storage tanks

Easy **recycling**
